MT 250-27 T

2.50 m loading bed, 2,295 kg payload – 2,700 kg gross vehicle weight.

TYPE PLATE		MÜLLER MACHINERY
MODEL	MT 250-27 T	
CLASS	2.7 t	
APPROVAL	EU type approval	
ISSUE	09 / 2026	

GROSS VEHICLE WEIGHT

2,700 kg

PAYLOAD

2,295 kg

LOADING BED

2.50 × 1.27 m

UNLADEN WEIGHT

405 kg

The **MT 250-27 T** puts a tandem torsion axle under the 2.5 m format: 2,700 kg gross weight minus 405 kg unladen gives a 2,295 kg payload on a 2.50 × 1.27 m bed. Besides micro and 1-tonne class machines it takes the 1.8 t class, so a Müller MB 18 at 1,875 kg travels with its bucket and 420 kg to spare. The floor is 9 mm waterproof laminated plywood, loading is over a reinforced drive-on ramp, and the trailer is braked. Fully welded, hot-dip galvanised frame, built by Tiki Treiler in Estonia for Nordic conditions. EU whole-vehicle type approval with COC, ready to register in Germany. Delivery in 4 to 6 weeks.

Manufacturer data, Tiki Treiler. Payload = gross vehicle weight – unladen weight. The towing capacity of your vehicle must cover the actual weight of trailer and load.

Towing vehicle & driving licence

The licence category follows the trailer's **registered** gross vehicle weight, not its load; your towing vehicle's towing capacity must carry trailer and load. The documents of towing vehicle and trailer are decisive – this note is not legal advice.
